Preparation Tips

General Planning – Make your hotel reservations and travel plans months in advance. Put the group together early with a solid deposit commitment from each member. Have all of your food, beverages, coolers and extra clothes packed the night before your trip. Don't forget to have the gas tank filled.

Arrival Times – For first timers we suggest you plan your arrival ½ hr before sailing time. A half hour can easily be used up when you make a wrong turn, miss your exit, end up on the wrong side of the harbor, all possibly resulting in a speeding ticket. If in port the night before your trip, visit the boat to familiarize yourself with our location.

Communications – The group organizer should have a list of all members with their home and cell phone numbers. All group members should have my cell phone number (401) 487-9044. This allows all parties to communicate when someone is running late. My cell phone with voice mail is always on one hour before your scheduled departure. Please be considerate of my family and do not call my home phone between 5am and 6am.

Final Payment – Due to problems that have occurred in the past, personal checks will not be accepted. Final payment must be cash, money order or bank checks only, made out to Snappa Fishing & Diving Charters, Inc. The boat will not leave the dock until final payment is paid. An ATM machine is available in Galilee. A \$25.00 charge will be applied to your final bill for deposit checks that bounce.

Final Tip – The group organizer should make copies of the receipt package for each group member. This will provide them with directions to the boat, sailing date and departure time.
